

Package ‘ITALICSData’

November 28, 2024

Version 2.44.0

Date 2008-05-01

Title ITALICSData

Depends R (>= 2.0.0)

Author Guillem Rigail

Maintainer Guillem Rigail <italics@curie.fr>

Description Data needed to use the ITALICS package

License GPL

URL <http://bioinfo.curie.fr>

biocViews ExperimentData, HapMap

git_url <https://git.bioconductor.org/packages/ITALICSData>

git_branch RELEASE_3_20

git_last_commit 425b0e2

git_last_commit_date 2024-10-29

Repository Bioconductor 3.20

Date/Publication 2024-11-28

Contents

| | |
|------------------------------|---|
| Hind.QuartetEffect | 1 |
| Nsp.QuartetEffect | 2 |
| quartet | 2 |
| snpInfo | 2 |
| Sty.QuartetEffect | 2 |
| Xba.QuartetEffect | 2 |

| | |
|--------------|----------|
| Index | 3 |
|--------------|----------|

| | |
|--------------------|---------------------------|
| Hind.QuartetEffect | <i>Hind.QuartetEffect</i> |
|--------------------|---------------------------|

Description

It contains computed quartet effect for Hind array. Those were computed on some normal samples of the hapmap dataset.

| | |
|-------------------|--------------------------|
| Nsp.QuartetEffect | <i>Nsp.QuartetEffect</i> |
|-------------------|--------------------------|

Description

It contains computed quartet effect for Nsp array. Those were computed on some normal samples of the hapmap dataset.

| | |
|---------|--|
| quartet | <i>Quartet Info example for the vignette</i> |
|---------|--|

Description

An example for the vignette

Usage

```
data(quartetInfo)
```

| | |
|---------|--|
| snpInfo | <i>snp Info example for the vignette</i> |
|---------|--|

Description

An example for the vignette

Usage

```
data(snpInfo)
```

| | |
|-------------------|--------------------------|
| Sty.QuartetEffect | <i>Sty.QuartetEffect</i> |
|-------------------|--------------------------|

Description

It contains computed quartet effect for Sty array. Those were computed on some normal samples of the hapmap dataset.

| | |
|-------------------|--------------------------|
| Xba.QuartetEffect | <i>Xba.QuartetEffect</i> |
|-------------------|--------------------------|

Description

It contains computed quartet effect for Xba array. Those were computed on some normal samples of the hapmap dataset.
